

Sanjan- representation for relocating the electric transformer from Private road of Sanjan Sanatorium, Sanjan

The NCM receive a complaint that the Gujarat Electricity distribution Authority erected an electric Transformer on Private Road at Sanjan belongs to the WZO Trust Funds through the main street leading to the Sanjan Parsi Sanatorium. The trustees of WZO Trust were very disturbed about the impediments the transformer was creating to the pilgrims visiting the place to also mention that the transformer was illegally stationed in this compound without intimation and permission. This issue was vigorously taken up with the local administration and Gujarat Electricity Distribution Authority by M(KKD) at different levels over the past several months. It has been confirmed by the local administration that the concerned transformer tower has been relocated at the different place far away from the main street leading to Parsi and the local Parsi population and the foreign visitors have lauded the efforts of the National Commission for Minorities, the issue having piloted by member KKD.
