FOREWORD

It gives me immense pleasure to note that a Comprehensive Directory, the first of its kind, of the minority managed educational institutions in India has been prepared with great care and pains. I am sure it will be of much use to the Minorities Commissions in the Centre, and at the state levels. The various Organisations (including Governmental), and the individual researchers working on the educational aspect of the minorities will use it with profit.

The Indian Institute
of Public Administration,

A C K N O W L E D G E M E N T S

Preparing a Comprehensive Directory of the Minority Managed Educational Institutions in India as a necessary component of the research study on the financial and non-financial grievances of the minority managed educational institutions has been a challenging task. Ever since we began to work on this project it was an important point to locate these institutions. Unless we do so how could we design our research study? Though this Directory has covered comprehensively various types of minority educational institutions, this is not a complete list of all such institutions in India. This being the first attempt in this area, collection of materials involved considerable cost and time which were not available at our disposal. Secondly, there is hardly any systematic and scientific collection of lists of such institutions available at the state level.

Therefore, it has been a painstaking exercise although we are not quite sure whether all these institutions can be categorised as minority managed educational institutions. Whether recognised or unrecognised, aided or unaided by the Government, it remains a fact that these institutions are established and administered by the religious minority communities in India, viz., the Buddhists, the Parsis, the Sikhs, the Christians and the Muslims.

This is a state-wise, district-wise, type of institution-wise as well as minority community-wise directory of the minority managed educational institutions in India. The list is only illustrative and not exhaustive. Those educational institutions, associations/organisations/charities which do not find mention here may be included in the subsequent editions of this Directory as and when they are brought into the notice of the Minorities Commission. There are two parts of this Directory. Part-I lists the educational institutions of various types (Primary; Middle; Secondary; Madarsa; Junior College; College-General Arts, Science, Commerce; Professional; Technical etc.) established and administered by the religious minorities and alphabetically arranged. At the end of Part-I a minority community-wise index symbolically identified has been provided for various types of educational institutions. Part-II lists the minority associations/organisations/charities engaged in the socio-educational development of these communities. At the end of Part-II, an index similar to that in Part-I has been provided for minority-run associations engaged in socio-educational development of these communities.

Since this is a first attempt of its kind a multitude of sources had to be tapped. Ceaseless correspondence and reminders; repeated field visits, and newspaper publicity yielded good results.

We are particularly, thankful to the Minorities Commission, Government of India, for not only sponsoring this project but also for having made some lists available to us to start with.

Various organisations, bodies, associations and individuals made their contributions to prepare this directory. It is very difficult to list them out individually. Our thanks are due to them.

We particularly acknowledge with a sense of gratitude the assistance rendered by the numerous governmental and non-governmental organisations in preparing this directory of which some are listed below:-

- Al-Ansar Welfare and Educational Society, Malegaon.
- Al-Hasnat Socio-Educational Society, Somejiguda, Hyderabad.
